

Bob Shackley

Shock Absorbers:

- a) Shock absorbers for the Big 6 front and rear, big 15 rear and Light 15 rear use Monroe 150060
- b) Shock absorbers for the 4cyl cars front are Monroe 150073

Mudguard piping:

Use type VV301. It is the closest to the original

For the small boot Light 15s the front guards use 2 metres each and the rear guards and beaver panel 5.5 metres , a total of 8.5 metres

For big boot Light 15 some 8 metres of mudguard piping is required

For big 6's you need 8.5 metres

For Big 15, 8 metres is required.
